**New Hampshire Department of Health and Human Services
Communicable Disease Surveillance Section
Quarterly Communicable Disease Surveillance Report
January 1, 2005 – December 31, 2005**

Technical Notes:

* Includes human monocytic and human granulocytic ehrlichiosis

† Includes O157:H7

§ Reportable only for individuals 5 years of age and younger

‡ Rabies cases in animals.

¶ Includes only Primary and Secondary stage of infection.

NR Not reportable.

All data in this report are based upon information provided to the New Hampshire Department of Health and Human Services under specific legislative authority. The numbers reported may represent an underestimate of the true absolute number of cases in the state. Any release of personal identifying information is conditioned upon such information remaining confidential. The unauthorized disclosure of any confidential medical or scientific data is a misdemeanor under New Hampshire law. The department is not responsible for any duplication or misrepresentation of surveillance data released in accordance with this guideline. All data in this report includes both confirmed and probable cases and are complete as of June 23, 2006.
